HOW IT WORKS

Step 1:

Use marker tip to completely colour-in all damaged areas.

Step 2:

Use wax stick to fill the damaged area.

Step 3:

Use the Leveller to skim off excess fill material until any excess wax is completely removed and scratch fill is flush.

PERMAFILL™ Wood Repair System

Multimaster is excited to introduce the Mohawk PERMAFILL™ Wood Repair System, the durable, no mess, easy-to-use solution for wood repairs. Any wood or laminate can be repaired with the Mohawk PERMAFILL™ System. The PERMAFILL™ System can be used to fill scratches, gouges or dents in stained or painted finishes, without sanding.

Retail Kit Contents:

- ✓ PERMAFILL™ Dispenser (patent pending)
- ✓ 4 PERMAFILL™ coloured filler cartridges (patent pending): Black, White, Hickory and Walnut
- ✓ 1 Brush Tip Marker (to adjust colour and add grain lines)
- ✓ PERMAFILL™ levelling tool
- ✓ Finishing pad and cleaning card, a finishing cloth, 4 AA batteries and an instruction sheet.

Uses:

- ✓ To fill scratches, gouges or dents in stained or painted timber finishes.

Advantages:

- ✓ One tool with an easy to insert cartridge.
- ✓ One button operation – intuitive and easy to use – portable.
- ✓ Repair dents, scratches, gouges, in all types of wood and laminate surfaces.
- ✓ One dispense repairs an average 1-2 inch scratch.
- ✓ Change cartridge to another colour and make repairs on another piece immediately!
- ✓ No messy clean-up, no excess usage of product.
- ✓ Convenient, fast and durable repairs in minutes.
- ✓ A PROFESSIONAL Durable / Consumable Solution.

HOW IT WORKS

Step 1:

Turn on PERMAFILL™ DISPENSER; when green LED is lit, fill material is melted and ready to dispense.

Step 2:

Gently squeeze trigger to dispense; slowly lay a line of melted fill into scratch.

Step 3:

Wait a few seconds for fill to cure; remove file from PERMAFILL™ Dispenser and gently remove the excess material with the special levelling tool until scratch/defect is level.

Fil-O-Wood™ Wood Putty

Mohawk Fil-O-Wood™ Wood Putty is an extra fine textured, water-based putty, which can be easily applied to fill corner chips, holes, cracks, screw holes and other defects. Recommended for both finishing and touch-up repair jobs where time is not of the essence, or where the hole is too large to fill with a Mohawk Burn-In Stick. This product is applied in the same manner as most other wood putties. Slightly overfill, let dry, sand and top-coat.

Type: Water-based putty

Dry time: Depends on the depth of the defect

Ease of use: Some skill required

Suitable for: Vertical and horizontal surfaces

Uses:

- ✓ To refill corner chips, holes, cracks, screw holes and other defects.

Advantages:

- ✓ Mild solvent system will not harm the surrounding finish.
- ✓ Dries with minimum shrinkage and sands quickly.
- ✓ Easy water clean-up.
- ✓ Non-toxic, non flammable.
- ✓ Mohawk Blendal Powders can be mixed into Fil-O-Wood to create custom colours.
- ✓ Can be moulded, chiselled, sawed, stained and top-coated.
- ✓ Great for production work and all wood repairs.
- ✓ Mar resistant.

Use with:

- ✓ Mohawk Leveller Card, or putty knife
- ✓ Sealer and top-coat of your choice

Pro-Mark™ Marker

Whether you need to touch-up 1 inch or 20 feet, the dye-based Pro-Mark II marker does it the first time and every time. Pro-Mark™ Marker colours have excellent resistance to fading, colour shift from top-coats, and will not bleed. The nib offers superior flow along with the durability needed to do all normal repair work. The nib remains usable for the life of the marker. Pro-Mark™ Markers have good adhesion and mark equally well with the edge, the bottom or the tip.

Colourant: Dye

Application method: Marker

Opacity: Transparent

Advantages:

- ✓ Fast and easy to use.
- ✓ Excellent flow. Will not skip even when used on porous materials.
- ✓ Good adhesion to most surfaces and resistance to polishes.
- ✓ Uniform colour strength.
- ✓ Bleed resistant.
- ✓ Nib remains usable for the life of the marker for normal applications.
- ✓ Can be used at any angle, including upside down.
- ✓ Highest rated lightfast dyes for complete clarity and colour retention.
- ✓ Transparent colour allows the characteristics of the wood to show through.

Uses:

- ✓ Re-colouring edges and scratches.

Use with:

- ✓ Pro-Mark™ Markers can be used as a stand-alone product, but we recommend that you apply a top-coat, to obtain maximum durability.

Alternative products:

- ✓ Ultra™ Mark Marker (medium opacity)
- ✓ Brush Tip Graining Markers (transparent)
- ✓ Blendal® Stick (high opacity)
- ✓ Blendal® Powder (medium-high opacity)

Background Marker

Mohawk's Background Markers dispense a thin, fast drying, low sheen film, which can be used to replace background colour over repairs, such as fills or glue lines, or to mask areas of discolouration, such as stains or dark areas in raw wood. Background Markers are indispensable for touch-ups on MDF, particleboard, and other very absorbent substrates that tend to darken when other types of markers are applied.

Colourant: Pigment

Application method: Marker

Opacity: Very high

Advantages:

- ✓ Easy to use.
- ✓ Very high opacity.
- ✓ Pigment-based colour with excellent light fastness.
- ✓ Compliments many stain colours.
- ✓ Good adhesion to repairs.
- ✓ Valve activated nib: even when the cap is left off, the tip can be re-primed, so you can use all the liquid inside the marker.
- ✓ Replaceable nib.
- ✓ Colour band on markers to aid in identifying correct colours.

Uses:

- ✓ Colour over repairs e.g. glue lines, fillers, putties and burn-ins.
- ✓ Re-colour edges, scratches and sand throughs on highly absorbent materials, such as MDF or particleboard, which tend to darken with other types of markers.
- ✓ Mask areas of discolouration, such as stains or dark areas in raw wood.

Use with:

- ✓ Background Markers can be used as a stand-alone product, but we recommend that you apply a top-coat, to obtain maximum durability

Ultra Classic™ Toner

Mohawk Ultra Classic™ Toners have proven themselves very successful throughout the Touch-up industry where extreme transparency and clarity is required. Fade resistant and non-bleeding dyes are used for the entire colour line. These toners can be used to make small touch-up repairs or to shade and tone an entire article, without imparting the "muddy" effect sometimes associated with pigment type toners. Use the appropriate clear lacquer aerosol if the sheen level needs adjustment.

Colourant: Dye

Application method: Aerosol spray

Opacity: Transparent

Net contents: 13oz/365gm

Advantages:

- ✓ Hap's compliant.
- ✓ Aerosol form, no extra equipment needed.
- ✓ Feathers in invisibly to provide seamless touch-up repairs.

Pigmented wiping stains that create beautiful, grain-enhancing, fade-resistant wood tones. Wiping Wood™ Stains can be used as stand alone or in conjunction with other Mohawk products to create professional finishes with rich depth of colour. Spills are out of the question with Wiping Wood™ Stain Aerosols. No stain dribbles down the side of the container while stirring, just shake the can. Apply by spraying the stain to the surface of the wood and using a brush or a cloth to spread the colour. Clean-up is accomplished by inverting the can and depressing the nozzle for about 5 seconds.

Advantages:

- ✓ Easy to use.
- ✓ Very effective.
- ✓ Controlled results.
- ✓ Will not raise the sheen of matt finishes.

Uses:

- ✓ To remove blushing.
- ✓ To remove light scratches.
- ✓ To remove "orange peel"
- ✓ To blend over spray.

No Blush™ Blender Flat

Designed specifically for lower sheen finishes, No Blush™ Blender Flat smooths and levels finishes with orange peel or light scratches. No Blush™ Blender Flat can also be used to blend over-spray on spot repair work for various non-gloss sheens. It also works as a standard No Blush™ to remove the trapped moisture that causes problems like blushing.

Product number: M103-0276

Recommended for: Matt finishes

Suitable for: Only suitable for matt finishes (sheens 5-40)

Application method: Aerosol spray

Net contents: 13oz/365gm

Advantages:

Lacquer Reducer 2255

Formulated with only the highest quality solvents, Lacquer Reducer 2255 helps prevent orange peel and helps provide good flowout. Recommended for use with all Mohawk nitrocellulose, pre-catalysed and post-catalysed lacquers.

Product number: M650-0107

Suitable for: Use with all Mohawk nitrocellulose, pre-catalysed and post-catalysed lacquers.

Net volume: 1 gallon/3.78 litres

Advantages:

- ✓ Enhance flow and atomization.
- ✓ Reduce solids content to control build.
- ✓ Special blend provides proper evaporation rate.

Uses:

- ✓ To enhance flow and control build
- ✓ To prevent orange peel and provide good flow out.

RUBBING COMPOUNDS

Wool-Lube Rubbing Lubricant

Wool-Lube is multi-purpose, water reducible, non-abrasive rubbing and sanding lubricant. Wool-lube is non-toxic and contains no silicones. Wool-Lube can be used in conjunction with steel wool, abrasive pads, dry abrasive powders (such as pumice) or wet-dry sand paper to create a smooth, clear final appearance on all finishes. Wool-Lube is available as either a liquid or a concentrated paste.

Sheen produced: Matt to satin

Uses:

- ✓ As a rubbing and sanding lubricant.
- ✓ When reduced with water and used with steel wool or abrasive pads it can be used to remove packing marks and scratches from finished surfaces.
- ✓ As a preparatory step for higher sheen rubbing agents.

Use with:

- ✓ Steel wool, wet-dry sandpaper, or abrasive pads
- ✓ Liquid Rubbing Compound
- ✓ Poly-Buf™ Rubbing Compound

Available as:

- ✓ M720-1365 Pint/473ml (liquid)
- ✓ M720-1356 Quart/946ml (paste)

Advantages:

- ✓ Easy to use.
- ✓ Will not gum up.
- ✓ Wipes clean: finishes rubbed with Wool-Lube and an abrasive can be recoated immediately after being wiped dry.
- ✓ Can be lacquered over: does not interfere with the adhesion or drying of lacquer.
- ✓ Highly concentrated, water reducible paste.
- ✓ Non-abrasive.
- ✓ The velvet-satin lustre will not haze.
- ✓ Non-toxic.
- ✓ Contains no silicones.
- ✓ Can be used with dry abrasive powders, such as Pumice, and Rotten Stone.
- ✓ Using a sanding lubricant greatly extends the life of waterproof sandpapers.

Liquid Rubbing Compound (3-Step) Level II (Medium to High Sheen)

Mohawk's Level II Rubbing Compound series will produce a medium to high sheen on coatings such as lacquers, shellac, varnish, etc. For medium to high gloss sheens.

STEP 1: Liquid Rubbing Compound

Used to remove overspray and wet sanding scratches on conventional and modern high tech finishes. Yields a high satin sheen.

STEP 2: Liquid Polishing Compound

Cleans and polishes while removing Step 1 Liquid Rubbing Compound scratches and swirl marks. Yields medium gloss sheen.

STEP 3: Liquid Finishing Compound

Removes swirl marks from Step 2 Liquid Polishing Compound and increases surface gloss. Leaves a "polished" look.

Uses:

- ✓ To polish and buff.
- ✓ To remove light scratches from a finish.
- ✓ To remove overspray.
- ✓ To remove wet sanding scratches.

Advantages:

- ✓ Semi paste form.
- ✓ Quick clean up.

ADHESIVES

Industrial Grade Instant Adhesive Cyanoacrylate Glue

Industrial grade for maximum bonding strength.

The Thin Adhesive wicks into tight places where flowing into and under is essential.

Medium and Heavy Adhesives for semi-smooth surfaces.

Gel Adhesive for filling and bonding porous surfaces.

The non-whitening activator accelerates curing time.

The De-Bonder removes unwanted or excess glue.

Pro Tips Extension Applicators: thin, needle-like plastic tube attaches to the tapered tip of the CA glue bottle. Allows dispensing of glue into cracks and joins. This easily replaceable tip helps avoid clogging of the main tip on the bottle. Suitable for use with Thin, Medium and Heavy CA Adhesives.

Medium Thin Black: used to effectively fill joints for a seamless appearance. It serves as a quick setting, stabilizing, production joint filler. It is able to fill very narrow joints for a seamless look. When activated, glue sets in 20-25 seconds. Will not clog your machine sanding belts. Stays in very thin joints because of the adhesive. It will give that final seamless look. Allows you to be assured the joint is filled before finishing. Will not bleed through any solid coloured lacquer, even white.

Advantages:

- ✓ Easy to use.
- ✓ Industrial grade for maximum bonding strength.
- ✓ Non-yellowing.
- ✓ Quick repair: instant set, no clamping.
- ✓ Comes with a de-bonder for removing unwanted or excess glue.
